### SBM

The new generation of Boom Mounted Mulchers – very user friendly and ultra efficient whatever the conditions.

Whether you need to mow roadsides, cut hedges, or maintain watercourses, a SEPPi Boom Mounted Mulchers is the right choice.

Because of their extremely robust construction and user friendly features, you always do excellent work - in the shortest possible time.

Just look at the outstanding features of the new SBM range. SEPPi have a worldwide network of specialist to back up their product.

### SEPPi M. Means Efficiency

Here are your benefits:

#### RESISTANCE

All critical components are made of special steel: extreme durability with minimum weight, The machine can be fitted with a forestry mulching head, or with a head of working width up to 175 cm.

#### BEST VISIBILITY

The AVS system (Advanced Visual Safety) moves the mulcher head forward into your field of view to increasing safety and comfort while driving.

#### ELECTRONIC HEAD SUSPENSION

Thanks to the exclusive EHS system constant manual adjustments are no longer needed. This allows the operator to quickly react to sudden obstacles and maximize his productivity.
